BOUNDARY TECH GENERATION / AGES 6–8

Level 1 — Little Creators

A complete eight-session pathway for ages 6–8: projects, teaching steps, evidence, tools and child-safety boundaries.

Edition 2.0 · 23 October 2026 · Educational/public explanatory documentation · No public investment offering or approval claimed

What this level is designed to teach

Little Creators is the proposed programme for 6–8 years, with 50–60 minutes guided sessions. Teaching priorities: Visual storytelling, characters, first blocks, LED patterns. By the end, the learner should be able to present a project such as interactive story; 2-scene game; led pattern, and explain at least one problem they solved.

Eight-session progression and evidence

Week	Theme	Age-appropriate deliverable
1	Imagine and start	Choose character and draw story
2	Build the world/interface	Place background, two scenes and finish
3	Control and response	Use one tap or large-button event
4	Rules and objectives	Add a visible goal and restart with help
5	Feedback and accessibility	Try picture/audio feedback and take a break
6	Find and fix defects	Explain a surprise; ask adult for one repair
7	Prepare a version	Save a local project and practise private demo
8	Private showcase	Share story or LED pattern with approved guest

Allowed tools and safety boundaries

ScratchJr or supported facilitated Scratch, visual cards and preassembled LED demonstration. No independent account, soldering, unmoderated AI or unsupervised robotics.

Finished project acceptance

- Runnability on the approved workshop device.
- An original child-made idea or improvement that the learner can explain.
- At least one recorded or explained test, including what was expected.
- One adjustment made because of feedback or a defect.
- Local safe project packaging and only opt-in guardian-approved private sharing.

Facilitator and guardian notes

Age is a default placement guide, not a test of worth or ability. The host and parent can choose accommodations, quiet presentation and slower pace. A workshop is not independent childcare, a credit-bearing qualification or a commercial data contribution. The original blueprint is a proposal: there are no confirmed dates, named registered students or verified screening outcomes to publish.
